

Step 01 - Select paper bag template from website according to design program:

Software:

Illustrator

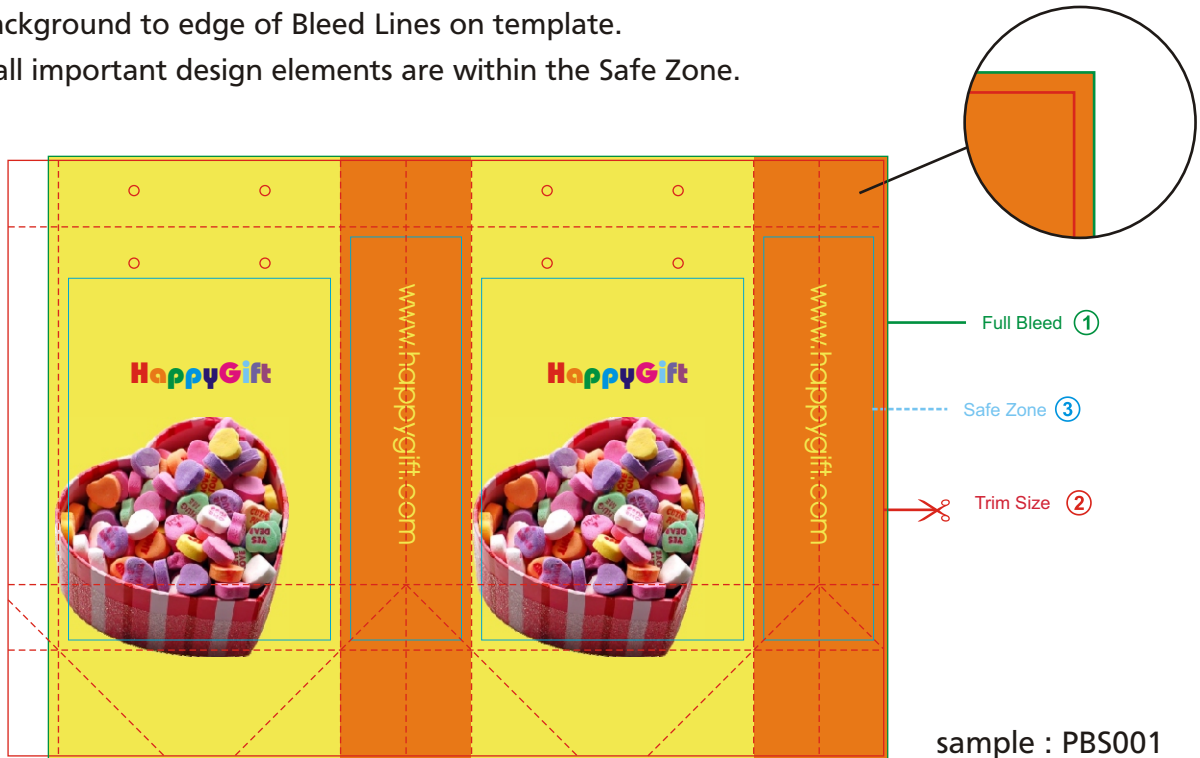

CorelDraw

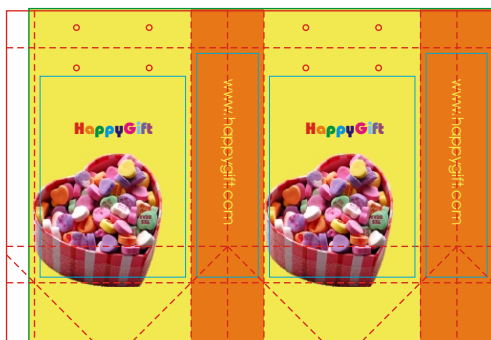

Open template using design program of your choice and design on it.

Step 02 - When designing, do the following accordingly:

- i) Bleed background to edge of Bleed Lines on template.
- ii) Ensure all important design elements are within the Safe Zone.

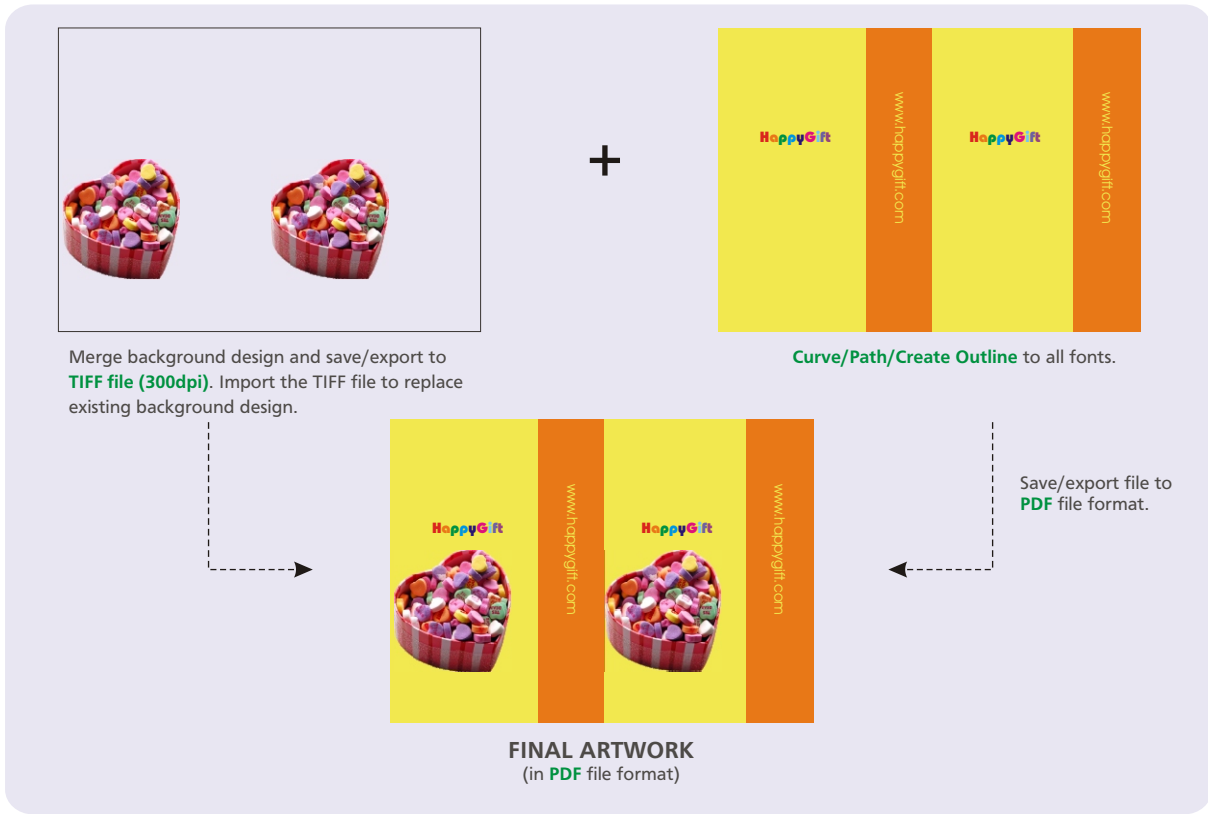

Step 03 - Remove all template guidelines, text descriptions and outline.

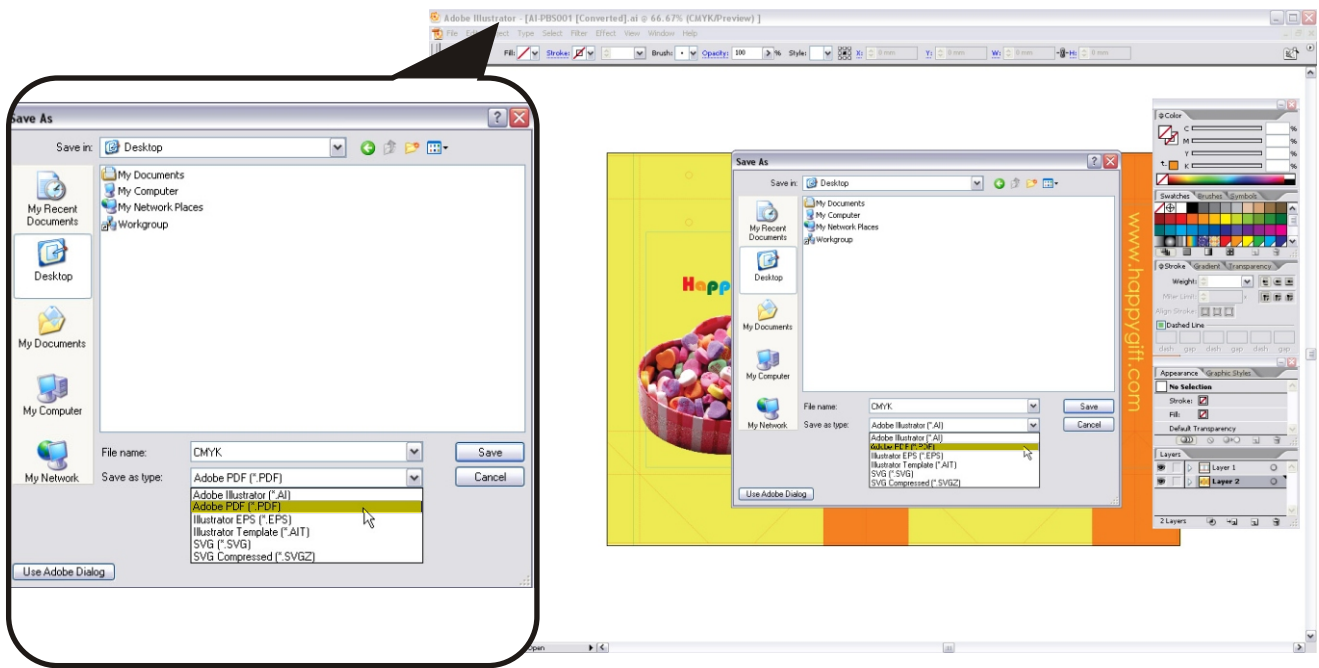

Step 04 - Preparing final artwork file in PDF file format :

Step 05 - Save artwork into PDF and upload with order.

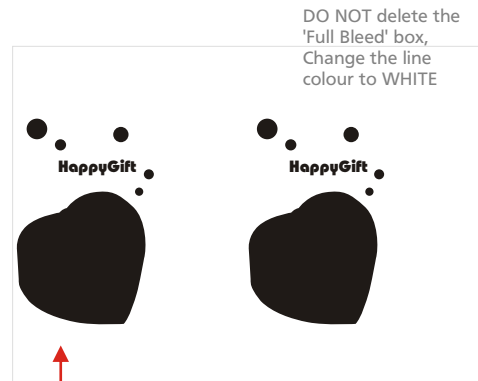

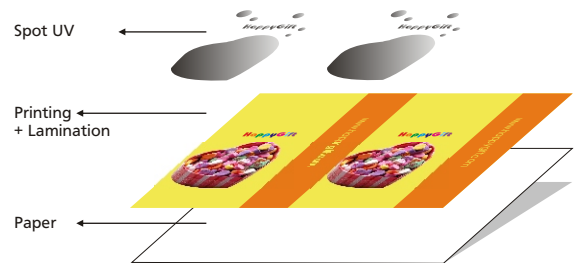

**Important! Spot UV embellishing option is only available for the following Paper Bag Models : PBS001, PBS002, PBS004, PBS006, PBL002**

Step 01 - Prepare CMYK Artwork (Follow all steps of PREPARING FINAL ARTWORK)

Help > Artwork Specifications > Preparing final artwork

Step 02 - Prepare Artwork of Spot UV Image :

- i) Create a copy of CMYK artwork file and remove all images except those that will have Spot UV.
- ii) Trace outline of Spot UV image then fill with K100.
- iii) Ensure images are positioned precisely in layout to minimize mis-registration.
- iv) Save artwork into PDF (Ensure Transparency is turned on first).

**File 1**  
**Artwork without image to be Spot UV varnished**  
 Exclude the area/image to be Spot UV varnished.  
 This artwork will be printed using process colour.

**File 2**  
**Artwork of Image to be Spot UV varnished (JPEG file not accepted)**  
 Ensure image is positioned accurately (as per File 1) to avoid mis-registration.  
 You **MUST** fill the area/image to be Spot UV varnished in **PROCESS COLOUR (K=100)**  
 Save your file with transparent

Step 03 - Zip both artwork files and upload with order.

---

Zip all PDF files together

or

Combine and save into 1 PDF file (2 pages)

} Double check preparation then upload file online

**Spot UV Do's and Don'ts**

1. Ensure line thickness is not less than 0.5pts.
2. All fonts are not smaller than 4pts.
3. Spot UV should not be applied to small logos that have fonts smaller than 4pts.
4. Do not apply Spot UV on outlines of a table/chart to avoid registration inaccuracy.
5. Do not apply Spot UV along edge of cut lines, die-cut lines and creasing lines.
6. Spot UV can only be applied to outer face of paper bag.
